

Asthma Action Plan

Complete & return, if applicable

Dear Parent,

While asthma cannot be cured, it can be controlled. Effectively managing asthma requires a partnership among the student, parent/guardian, physician and other adults who work with the child. An asthma management program for your child should contain the information requested on the linked “Asthma Treatment Plan.” Parent and physician should sign the treatment plan and it will then be kept on file in the Health Office.

Sincerely,

Amy Biswurm, R.N., B.S.N., N.J.-C.S.N.
School Nurse
