

Head Lice

Treatment Centers

Dear Parents,

Lice among school-aged children is a year-round occurrence. Traphagen's website link "Nurse's News" offers detailed information about:

- What are head lice?
- Where do head lice come from?
- How do you know if your child has head lice?
- What can you do?

Although we are not endorsing professional lice treatment centers, we want to share with you that some parents have been extremely pleased with their services. Listed below are a few that have been used:

- Head To Head Lice Treatment Center, 507 Lafayette Ave, Hawthorne, 973-949-4390
- Lice beaters, www.licebeaters.com, 973-376-6878
- Lice Be Gone, 553 Millburn Ave, short Hills 973-467-5423
- Lice Lifters, 353C US Highway 46 West, Suite 215, Fairfield, 973-287-6067
- Lice Happens, www.licehappens.com, 973-727- 8902

It is a very labor intensive job to remove all nits and perhaps these services might be helpful to you.

Sincerely,

Amy Biswurm, R.N., B.S.N., N.J.-C.S.N.
